

## Headsets for PARTNER® Telephones

Avaya offers ergonomically designed telephone headset systems for the PARTNER® family of telephones. Whether you choose a corded or cordless headset, you will find one that matches your needs and desired price. The full line of Avaya professional and contact center communication devices sets the standard in sound quality and durability. Avaya headsets are designed for maximum comfort, in styles that suit all wearers and usage patterns.

Choosing your headset is as easy as 1, 2, 3.

1. Decide if you want the freedom to roam with a cordless headset.
2. Choose a headset style that best suits you. (For example, noise-canceling headsets are great in noisy environments or when using VoIP telephones.)

Research shows that headsets help reduce neck, upper back and shoulder tension, and also help increase productivity\*. So regardless of the headset you choose, you will notice a big difference!

\* "Headsets increase knowledge worker productivity 22%." Plantronics, November 2003
